Earthquake Activity: No significant activity.

Tropical Weather: No tropical activity is occurring that poses a threat to any US territory. There are no coastal watches or warnings in effect at this time.

Report of Incident Notifications

Region 9, Paint Spill, Marin County, CA - On Thursday September 10 at approximately 9:00 AM PDT, EPA Region 9 learned of a paint spill in Marin County, CA after a truck overturned. The truck was carrying approximately 14,000 gallons of paint, but only 2 out of the 5 paint-carrying tote sacks actually ruptured. A nearby creek may contain steelhead trout habitat and access to the creek is limited. The spill is in the inland zone. EPA and the California Highway Patrol split the response jurisdiction. One EPA Region 9 OSC and one Region 9 ecological risk assessor deployed to the spill site to assess the situation.

There were 34 epaoscd.org websites created and/or updated during this reporting period
09/10/15-09/11/15.

Exercises/Predeployments

Nothing significant to report.
